Circuit System

● Specifications

Model		SM-IPX78-500
Testing room sizeΦ×H (mm)		500*1200
Performance index	Pressure range	0 ~ 10kg (simulated 100m water depth test)
	Iner chamber material	Double layer SUS304 stainless steel welded
	Depth indication	Electronic display
Operation Control System	Controller	SANWOOD SH-5500 controller
	Time controller	Imported programmable time computer integrated controller
	Water pressure control	Electromagnetic flowmeter
	Water supply system	Water tank, booster pump
	Power supply	AC380V TN-S
Safety protection		Leakage, short circuit, motor overheating
